### OBJECTIVE

As the Web Developer, I led our web team in a collaborative process with our analysts to architect, design, and build measurably successful websites. Building Shopify website & store solutions using PHP-based frameworks and customization of a child-fully responsive theme.

As Technical Co-Lead of a team mentored and oversaw other developers, assisted with scoping and architecting new projects, and review code for my team's entire project. Developed a Shopify theme framework to make client site development more efficient. Designed and built custom websites and store in Shopify.

Working with payment gateways such as Google Wallet, PayPal, and Authorize. Worked with a sales team director on the creation of a Shopify offering specifically for clients with a smaller budget.
